

SPA 4201IP
IP AUDIO INTERFACE UNIT

Siera manufactures reliable and affordable solutions in Electronic Security, CCTV, Access Control, Intercommunications, Professional Audio and Automation.

Featured specifications

- Rack design (1U)
- 4-way independent network decoder chip
- 4-way analog audio input
- Volume control for each individual audio input channel
- Built-in 4 alarm inputs and 4-channel alarm outputs
- Ultra-low network delay of voice transmission
- RJ45 interface

Power Supply And Consumption:	AC120V-240V ≤20W
Network Protocol:	TCP/IP, UDP, ARP, ICMP, IGMP
Network Chip Rate:	10/100Mbps
Audio Code:	Mp3/pcm/adpcm
Audio Sampling:	22.05-48kHz, 16bit
S/n & Frequency Response:	≥90db, 20hz-16kHz
Network Delay:	Broadcast Delay≤30ms
Interface:	4 Rj45 Ports,4 Line In Ports, 4 Line Out Ports, 4 Alarm In Sockets,4 Alarm Out Sockets
Working Temp & Humidity:	-10° C ~50° C, ≤90%rh (Not Condensing)
Dimensions & Weight:	483x183x44mm, 4.2kg
